

# ZOO MYSTERIES

Student Name \_\_\_\_\_ Date \_\_\_\_\_

## What do the following Micke Grove Zoo animals have in common?

**Instructions:** Solve all 8 animal mysteries by visiting all of the Micke Grove Zoo animals pictured below and answer the questions at the end of each row and column.

**Bobcat**  
*Lynx rufus*

**Cotton-top tamarin**  
*Saguinus oedipus*

**Chilean pudu**  
*Pudu pudu*

**Ring-tailed lemur**  
*Lemur catta*

What type of animal are we?  
(mammal, bird, fish, reptile, amphibian, arthropod)

---

**Fossa**  
*Cryptoprocta ferox*

**Red-ruffed lemur**  
*Varecia rubra*

**Radiated tortoise**  
*Astrochelys radiata*

**Hissing cockroaches**  
*Gromphadorhina portentosa*

In the wild, we are found only on which island?

---

**American bullfrog**  
*Rana catesbeiana*

**Red eared slider**  
*Trachemys scripta elegans*

**Pacific pond turtle**  
*Actinemys marmorata*

**Scarlet ibis**  
*Eudocimus ruber*

We are found in what type of habitat?

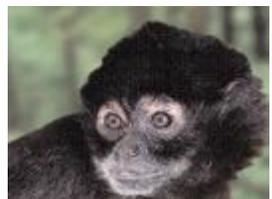

---

**Waldrapp ibis**  
*Geronticus eremita*

**Golden-lion tamarin**  
*Leontopithecus rosalia*

**Spider monkey**  
*Ateles geoffroyi*

**Kuhl's marmoset**  
*Callithrix kuhlii*

Because there are not many of us left in the wild, we are called an

“ \_\_\_\_\_ species.”

We are carnivores. What do we eat?

---

We are omnivores. What do we eat?

---

We are herbivores. What do we eat?

---

To help us survive in our environment, we all have our own special:
